TO WHOM IT MAY CONCERN:

## LETTER OF RECOMMENDATION FOR HAJA JABBIE

It gives me great pleasure to recommend Haja Jabbie for admission to your institution. I have been the Registrar of this University in the last seven years and I have come to know her extremely well and feel that she is an outstanding candidate for admission to pursue graduate studies.

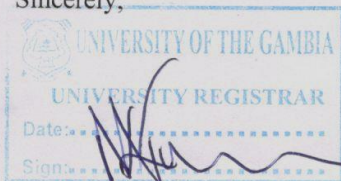

Haja Jabbie is truly an outstanding student who has accumulated a long list of academic honors, achievement and extra-curricular activities. She is a gifted student who combines serious study with a genuine concern for the community in which she lives.

I can attest to Haja Jabbie's maturity and her commitment to her studies. She does her work conscientiously, she always seeks out course work that challenges her, and she has an amazing capacity for fulfilling her responsibilities in a great variety of activities. She is organized in her goal-setting, yet has learned to keep her options open for the future.

Intellectually, Haja Jabbie is one of the very best students I have ever worked with. She has the ability to carry out research independently; she is extremely discipline in her work, her analytical skills are highly developed, and she is always thorough in what she does.

I give Haja Jabbie my highest and unqualified recommendation. She is truly exceptional.

Sincerely,

**Momodou Lamin Tarro**

University Registrar
